We help you lift and move
Safe and easy

Safe and precise server handling in narrow data centre aisles

Protect your people, equipment and uptime
with Hovmand Cloud Lifters.

CloudLifter

HOVMAND
LIFT AND MOVE – **SAFE AND EASY**

Lifting solutions designed for **data centres**

Hovmand – who we are
Hovmand was **founded in 1972** and has built and delivered more than **50,000 lifters worldwide.**

That dedication makes us **experts** in one thing: lifters that are safe, ergonomic and simple for anyone to use.

Why data centres trust us
Handling servers from 1U to 60U requires precision, safety and reliability.

That's precisely what Hovmand's Cloud Lifters are designed to do.

CloudLifter

- ✓ **Safe for people and equipment**
  Maximise uptime while minimising risk
- ✓ **Protect your investment**
  Safeguard expensive servers and reduce downtime
- ✓ **Compact and lightweight**
  Manoeuvres easily through narrow aisles and doorways
- ✓ **Intuitive to use**
  No special training needed, ready for every team member
- ✓ **Proven and reliable**
  More than 50 years of experience, trusted worldwide
- ✓ **Safe for people and equipment**
  Maximise uptime while minimising risk

HOW WE DO IT
hovmand.com

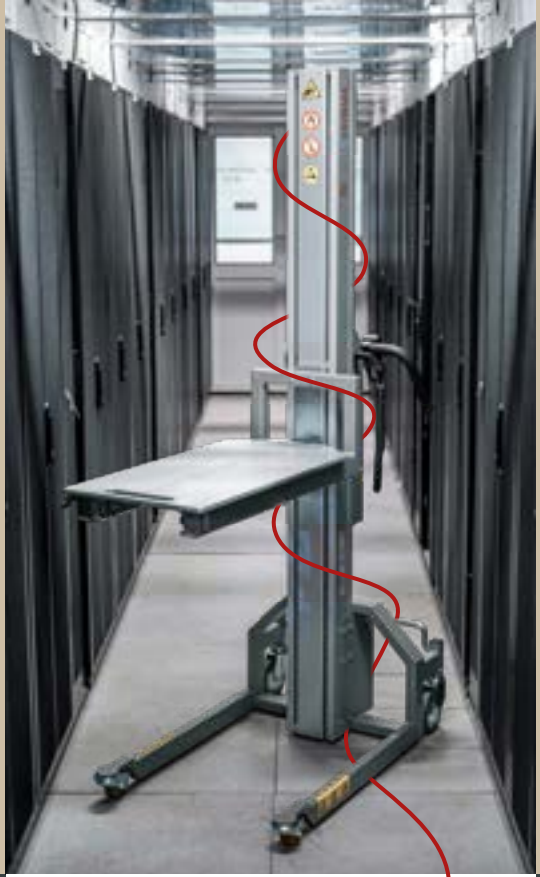

Go
Cloud Lifter

The Hovmand Go Cloud Lifter is the ideal entry-level lifter for data centres.

With a **capacity of up to 70 kg** and a reach of **up to 38U**, it offers a lightweight, highly manoeuvrable solution for **handling batteries, smaller servers and technical components**. Its compact design makes it easy to manoeuvre through **narrow aisles and tight rack spaces** – ensuring safe, ergonomic handling every time.

LIFTING CAPACITY
Up to 70 kg

LIFTING HEIGHT
38U (min. 179 mm / max. 1777 mm)

130
Cloud Lifter

The Hovmand 130 Cloud Lifter is engineered to handle a wide range of lifting tasks in modern data centres.

The model offers a reach from **1U to 42U** and can be equipped with **sliding or fixed loading platforms**, making it adaptable to different rack setups and workflows.

LIFTING CAPACITY
Up to 130 kg

LIFTING HEIGHT
42U (min. 90 mm / max. 2042 mm)

200
Cloud Lifter

The Hovmand 200 Cloud Lifters is engineered to handle a wide range of lifting tasks in modern data centres.

The model offers a reach from **1U to 42U** and can be equipped with **sliding or fixed loading platforms**, making it adaptable to different rack setups and workflows.

LIFTING CAPACITY
Up to 200 kg

LIFTING HEIGHT
42U (min. 90 mm / max. 2042 mm)

E300
Cloud Lifter

The Hovmand E300 Cloud Lifter is built for the most demanding lifting tasks in data centres.

It carries up to **300 kg** and reaches from **1U to 38U**, making it the go-to solution for **large-scale equipment** and **specialised installations**.

Engineered with stability and durability in mind, the E300 ensures **reliable handling of mission-critical infrastructure.**

LIFTING CAPACITY
Up to 300 kg

LIFTING HEIGHT
38U (min. 90 mm / max. 1777 mm)

Telescopic Cloud Lifter

The Hovmand Telescopic Cloud Lifter is **built for the demands of modern data centres.**

Its telescopic mast fits through standard doorways yet reaches **up to 60U – starting from just 1U** for full rack coverage.

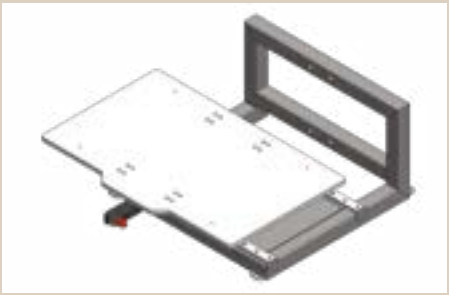

Light and manoeuvrable, with **high-quality swivel wheels** for safe, effortless handling.

LIFTING CAPACITY
Up to 150 kg

LIFTING HEIGHT
60U (min. 90 mm / max. 2723 mm)
